MEMORANDUM FOR: Director of Central Intelligence

SUBJECT: Foreign Relations Committee Request for
Transcripts

1. Following our conversation on the elevator last night, we called Carl Marcy to ask how anxious he was to obtain the four transcripts in question "first thing" tomorrow morning. When told that it might not be easy to get them there so early, he said "what's the problem; the clear understanding was that we could always get them on a half hour's notice." He said he wanted them no later than 9:30 a.m., and we said we could have them there by that time.

2. He indicated they wanted to see them tomorrow in preparation for your appearance on 23 March. Accordingly, I looked over these transcripts last night so we could send them to him this morning. I particularly noted mention of Agency operations in Southeast Asia and of the ICBM problem, which I would guess might be their main, or at least most troublesome, areas of interest. The chief points you made on these and related subjects, and a few made by Committee members, were as follows:
